**Subject:** March USB Quarterly Reports are due March 15, 2021

**EXTERNAL EMAIL: Evaluate.**

Hello everyone!

USB quarterly progress reports are due March 15, 2021. Please email your report(s) directly to me using the attached template.

**\*\*Note: USB now requires that subcontractors report whether any proceeds have been or may be generated for work performed pursuant to their contract which are to be submitted to USB, so a new section has been added to the report template that must be completed before the report will be accepted by SmithBucklin.\*\***

Thanks,

Connie Davis

Trey,

The report you submitted is missing the section discussing the National Soybean Checkoff Research Database (see below). I just want to confirm you are comfortable with the contents of the report being published to the database. If not, please copy your report to the attached and include a non-technical summary.

**National Soybean Checkoff Research Database <https://www.soybeanresearchdata.com/> (public website funded by USB). Please include a non-technical summary along with your project status. The non-technical summary will be published to the website. If a non-technical summary is not provided, the contents of this entire report will be published.**

Thanks,

Connie Davis
